RECOMMENDATION

The Illinois Environmental Protection Agency ("Illinois EPA") hereby files its Recommendation regarding the tax certification of water pollution control facilities pursuant to pursuant to Section 125.204 of the regulations of the Illinois Pollution Control Board, 35 Ill. Adm. Code 125.204.

1. On December 27, 2002 the Illinois EPA received a request from Bacon Hill Farm, Inc. (log number TC 23-02, Exhibit A) for a recommendation regarding the tax certification of water pollution control facilities, pursuant to 35 Ill. Adm. Code 125.204.
2. The applicant's address is: Gregory M. Leigh
Bacon Hill Farms, Inc.
5087 E. ILL 9 Highway
Avon Illinois 61415
3. The proposed water pollution control facilities in this request are located at the Northwest 1/4 of Section 25, T7N, Range 1E of the 4th Principal Meridian, Fulton County at the above address, and consist of the following livestock waste management facilities:

One concrete manure pit (40 ft. x 54 ft. x 8 ft. deep) with 4 manure pump-out tubes and the slotted concrete portion of the floor located over the manure pit in a swine finishing building.

One concrete manure pit (10 ft. x 60 ft. x 6 ft. deep) having 2 manure pump-out tubes and the slotted portion of the floor located over the manure pit in a swine sow confinement building.

THIS FILING IS SUBMITTED ON RECYCLED PAPER

Three concrete manure pits (each 10 ft. x 34 ft. x 3 ft. deep) with 2 manure drain pull plugs per pit and the slotted plastic portion of the floor located over the manure pits in one swine nursery building.

Approximately 44 feet of 6-inch diameter PVC manure transfer pipe.

One concrete manure pit (23 ft. x 70 ft. x 4 ft. deep) with 4 manure pump-out tubes and the slotted plastic and steel portion of the floor located over the manure pit in one swine farrowing building.

These livestock waste management facilities, which are used to collect, transport and/or store livestock wastes prior to cropland application, are further described in Exhibit A.

4. Section 11-10 of the Property Tax Code, 35 ILCS 200/11-10 (2000), defines "pollution control facilities" as:

"any system, method, construction, device or appliance appurtenant thereto or any portion of any building or equipment, that is designed, constructed, installed or operated for the primary purpose of: (a) eliminating, preventing, or reducing air or water pollution ...or (b) treating, pretreating, modifying or disposing of any potential solid, liquid or gaseous pollutant which if released without treatment, pretreatment modification or disposal might be harmful, detrimental or offensive to human, plant or animal life, or to property."

5. Pollution control facilities are entitled to preferential tax treatment, 35 ILCS 200/11-5.
6. Based on the information in the application and the purpose of the facilities, it is the Illinois EPA's engineering judgment that the described facilities may be considered "pollution control facilities," pursuant to 35 Ill. Adm. Code 125.200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in 35 Ill. Adm. Code 125.200, and are eligible for tax certification from the Board.

THIS FILING IS SUBMITTED ON RECYCLED PAPER

WHEREFORE, the Illinois EPA recommends that the Board **grant** the requested tax certification.

Sec. C POLLUTION CONTROL FACILITY - CONTAMINANTS	(1) Nature of Contaminants or Pollutants			
		Material Retained, Captured or Recovered		
	Contaminant or Pollutant	DESCRIPTION	DISPOSAL OR USE	
	Air Contaminants Hazardous Air Pollutants	Hog Manure (Liquid + Solid)	waste dumped in pit and injected into fair. It spread on road and near river causing a bad smelling soil	
		(2) Point(s) of Waste Water Discharge		
2 pumps on 11-5 end				
ACCOUNTING DATA	Plans and Specifications Attached		Yes ☒ No	
	(3)	Are contaminants (or residues) collected by the control facility?	Yes ☒ No	
	(4)	Date installation completed <u>5/97</u> status of installation on date of application <u>completed & in use</u>		
	(5)	a. FAIR CASH VALUE IF CONSIDERED REAL PROPERTY:	\$ <u>13630</u>	
		b. NET SALVAGE VALUE IF CONSIDERED REAL PROPERTY:	\$ <u>0</u>	
		c. PRODUCTIVE GROSS ANNUAL INCOME OF CONTROL FACILITY:	\$ <u>0</u>	
		d. PRODUCTIVE NET ANNUAL INCOME OF CONTROL FACILITY:	\$ <u>0</u>	
	e. PERCENTAGE CONTROL FACILITY BEARS TO WHOLE FACILITY VALUE:	% <u>25</u>		
Sec. F SIGNATURE	The following information is submitted in accordance with the Illinois Property Tax Code, as amended, and to the best of my knowledge, is true and correct. The facilities claimed herein are "pollution control facilities" as defined in Section 11-10 of the Illinois Property Tax Code.			
	<u>Gregory M. Gule</u> Signature <u>president</u> Title			
Sec. G INSTRUCTIONS	INSTRUCTIONS FOR COMPILING AND FILING APPLICATION			
	General: Separate applications must be completed for each control facility claimed. Do not mix types (water and air). Where both air and water operations are related, file two applications. If attachments are needed, record them consecutively on an index sheet.			
	Sec. A	Information refers to applicant as listed in the tax records and the person to be contacted for further details or for inspection of facilities. Define facility location by street address or legal description. A plat map location is required for facilities located outside of municipal boundaries. The property identification number is required.		
	Sec. B	Self-explanatory. Submit copies of all permits issued by local pollution control agencies. (e.g. MSD Construction Permit)		
	Sec. C	Refers to manufacturing processes or materials on which pollution control facility is used.		
	Sec. D	Narrative description of the pollution control facility, indicating that its primary purpose is to eliminate, prevent or reduce pollution. State the type of control facility. State permit number, date, and agency issuing permit. A narrative description and a process flow diagram describing the <u>pollution control facility</u> . Include a listing of each major piece of equipment included in the claimed fair cash value for real property. Include an <u>average</u> analysis of the influent and effluent of the control facility stating the collection efficiency.		
	Sec. E	List air contaminants, or water pollution substances released as effluents to the manufacturing processes. List also the final disposal of any contaminants removed from the manufacturing processes. Item (1) - Refers to pollutants and contaminants removed from the process by the pollution control facility. Item (2) - Refers to water pollution but can apply to water-carried wastes from air pollution control facilities. Submit drawings, which clearly show (a) Point(s) of discharge to receiving stream, and (b) Sewers and process piping to and from the control facility. Item (3) - If the collected contaminants are disposed of other than as wastes, state the disposition of the materials, and the value in dollars reclaimed by sale or reuse of the collected substances. State the cost of reclamation and related expense. Item (4) - State the date which the pollution control facility was first placed in service and operated. If not, explain. Item (5) - This information is essential to the certification and assessment actions. This accounting data must be completed to activate project review prior to certification by this Agency.		
	Sec. F	Self-explanatory. Signature must be a corporate authorized signature.
