**Date:** Friday, June 17, 2022 4:59:34 PM

---

Don,

I am writing to you to file a Written Public Comment with the Clerk's Office of the Illinois Pollution Control Board: I support the proposed PFAS groundwater quality standards in IPCB R2022-018. Basing new PFAS toxicity levels on childhood exposure risks offers increased protection against the harmful effects caused by ingestion of such chemicals in drinking water and will protect the most sensitive and vulnerable of Illinois' citizens.

Thank you for your consideration,

Kathleen Hulina
