RECOMMENDATION

NOW COMES the ILLINOIS ENVIRONMENTAL PROTECTION AGENCY ("Illinois EPA"), through its attorneys, and pursuant to 35 Ill. Adm. Code 125.204 of the ILLINOIS POLLUTION CONTROL BOARD'S ("Board") regulations, files the Illinois EPA's Recommendation in the above-referenced tax certification request of air pollution control facilities. In support thereof, the Illinois EPA states as follows:

1. On October 16, 2003, the Illinois EPA received a request and supporting information from ARCLAR COMPANY, LLC ("Arclar") concerning the proposed tax certification of air pollution control facilities for certain sources and/or equipment located at its Willow Lake facility. A copy of the relevant portions of the application is attached hereto.

[Exhibit A].

2. Additional information concerning the property identification numbers was faxed to the Illinois EPA on November 13, 2003. [Exhibit B].

3. The applicant's address is as follows:

Arclar Company, LLC  
Attention: Mr. Donald Coover  
5949 Beau Jardine Drive  
Indianapolis, Indiana 46237

4. The air pollution control facilities involved in this request are located at 420 Long Lane Road, Equality, Saline County, Illinois 62934 and consist of the following:

Coal Preparation Facility whose primary purpose is to remove, through a coal washing process, the sulfur and ash from the coal. The coal washing process reduces sulfur dioxide and particulate matter emissions, which are regulated air pollutants.

5. Section 11-10 of the Property Tax Code, 35 ILCS 200/11-10 (2002), defines "pollution control facilities" as:

"any system, method, construction, device or appliance appurtenant thereto, or any portion of any building or equipment, that is designed, constructed, installed or operated for the primary purpose of: (a) eliminating, preventing, or reducing air or water pollution... or (b) treating, pretreating, modifying or disposing of any potential solid, liquid, gaseous pollutant which if released without treatment, pretreatment, modification or disposal might be harmful, detrimental or offensive to human, plant or animal life, or to property."

6. Pollution control facilities are entitled to preferential tax treatment, as provided by 35 ILCS 200/11-5 (2002).

7. Based on information in the application and the underlying purpose of the facilities to prevent, eliminate or reduce air pollution, it is the Illinois EPA engineering judgment that the described facilities may be considered as "pollution control facilities" in accordance with the statutory definition and consistent with the Board's regulations at 35 Ill. Adm. Code 125.200.

8. Because the described facilities satisfy the aforementioned criterion, the Illinois EPA recommends that the Board issue the applicant's requested tax certification.

Respectfully submitted,  
ILLINOIS ENVIRONMENTAL PROTECTION AGENCY
