GENERAL REMARKS

Weather conditions: Partly cloudy

This site had been brought to the attention of the Ogle County Health Department on August 14, 2000. At that time, there was a complaint regarding a vacant, half-burned house that was a hazard to neighborhood children. After an inspection the Ogle County Health Department asked Kenneth Gilland to demolish the house. K. Gilland said he thought the fire was being investigated by police so he had not yet demolished it. Sgt. Meyers of the Ogle County Sheriff's Department said there was no on-going investigation and the house could be demolished. K. Gilland was informed of Sgt. Meyers's comments on November 11, 2000 and Gilland replied that he will demolish the house at the end of November, 2000.

The Ogle County Solid Waste Management Department received a new complaint regarding this house on May 15, 2003. An inspection by J. Bliton on August 15, 2003 revealed a pile of demolition waste burning. J. Bliton told K. Gilland the fire would have to be put out and the waste would have to be taken to an IEPA permitted landfill. The old house had been demolished and was sitting in a big pile. J. Bliton explained the state laws regarding construction and demolition waste. She also explained that K. Gilland will either receive an Administrative Citation Warning Notice or an Administrative Citation which could result in a fine of \$4500.

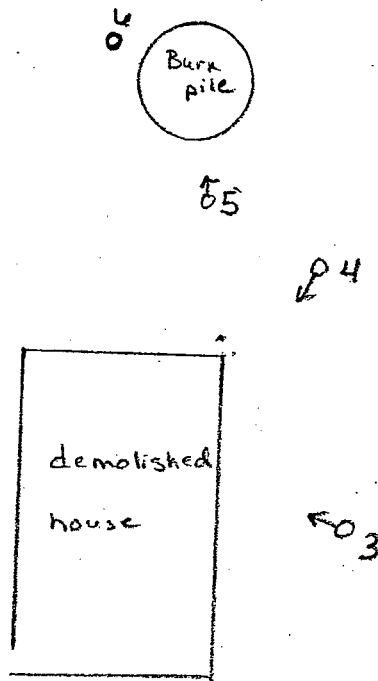

An Administrative Citation Warning Notice was sent to K. Gilland on August 27, 2003, with a compliance deadline of September 15, 2003.

On September 24, 2003, Mark Miller of the Ogle County Planning and Zoning Department and Joy Bliton, reinspected the site. There has been no progress made in the cleanup of this site. It looks as it did on August 15, 2003. Photographs were taken. They left at 1:00 p.m.

Date of Inspection: 08/15/03 Inspector: Joy Bliton/Steve Rypkema
Site Code: 1418005001 County: Ogle

GENERAL REMARKS

Weather conditions: 83 degrees, partly sunny, winds W 7 mph.

8/15/03 - I arrived at the site at 11:25 a.m. Ken Gilland was on a skid loader and another man was working on the tire. I identified myself and we spoke about the burn pile which was still smoldering. In the pile was roofing material, slate siding, lumber, metal, old plaster, flashing, asphalt siding, etc. The pile was demolition waste from the house.

Mr. Gilland said that he was just burning lumber. I explained that lumber is not legal to burn either. I explained that landscape waste would have been o.k. to burn. He said some people burn here when he is gone. He accepted a "No Burning" sign that he put up.

I told him that the fire, which was still smoldering, had to be put out. He said he would after they fix the wheel. I told him the demolition waste would have to be taken to an IEPA permitted landfill and copies of the receipts would have to be sent to me. I explained this will either result in an ACWN or an AC which could result in a fine of \$4,500. He understood.

I left there at 11:50 a.m. (JKB)

8/26/03 – Steve Rypkema reinspected. It appears that the site has not changed much since the inspection on 8/15/03. The burn pile in back has been covered with dirt. A stove, gutters, and other scrap metal are in a pile on the west side of the lot. A neighbor said she now has mice since the house was torn down. (SJR)
