CLERK'S OFFICE

AUG 27 2003

Dear Mr. Halloran,

STATE OF ILLINOIS
Pollution Control Board

Thank you for holding Mr. Lowe's appeal at the Cary Junior High school.
Please add these letters and petitions to the public comment for Mr. Lowe's
Appeal on August 14th, 2003.

PC#45

There is a need for transfer stations, but not in this location. It would be too close to people. If time permits I recommend a visit to the Lowe location. The property lies next to the Hollows (McHenry County Conservation Park). Lake Atwood flows into the wetlands and then into our Lake Killarney. Our water is provided to our community through wells. I have provided a picture of the Lowe location and surrounding areas.

I hope and pray that now the Illinois Pollution Control Board will agree with the decisions made by the McHenry County Board to deny Mr. Lowe's application.

Sincerely,

Patricia G. O'Brien
6311 Londonderry Drive
Cary, IL 60013

Petition opposing the Lowe waste transfer station

We the people support the decision of our McHenry County elected officials who denied Marshal Lowe's waste transfer station application on May 6th, 2003 because three out of the nine criterions would not be met.

Criterion #2 The facility is so designed, located and proposed to be operated that the public health, safety and welfare will be protected.

Criterion #3 The facility is located so as to minimize incompatibility with the character of the surrounding area and to minimize the effect on the value of the surrounding property.

Criterion #5 The plan of operations for the facility is designed to minimize the danger to the surrounding area from fire, spills, or other operational accidents.

Please add this petition to the Illinois Pollution Control Board Public Hearing of Thursday, August 14th, 2003 held at the Cary Junior High School.

RE: Mr. Marshall Lowe's
Proposed Waste Transfer Station

As a citizen and resident of the Cary, IL area, I whole heartedly support the decision of the McHenry County Board in denying Mr. Lowe's proposal for a Waste Transfer Station on Route 14 in Cary, IL.

I agree, with the County Board that this proposed Waste Transfer Station's location is certainly not in the best interest of our community, nor does it serve for the safety, and welfare of its residents.

I sincerely hope that you are in agreement based upon the findings of the County board's hearings and testimony. Please consider a solid NO to his appeal.

Sincerely,

3010 Blarney Stone Ln.
