Excuse me, you are violating all the rules and refusing to participate in basic requirements. Now you are lying in front of the board.

I have high functioning autism as the board is aware of, I would appreciate you refrain from additional discrimination attempts. Things are being filled out to the best of my ability given the disaster I'm having to deal with..

I even called ahead because I had to try and serve Wagner Farms, which had no office know nobody and everybody refused to help me.

And to quote your coworker, who may be hiding in the closet, I want to minimize the number of people who are exposed to your lies.

Here's the picture of my phone record calling, and saying, I was going to come serve the papers.

The sales lady become terrified because she is also getting thrown under the bus as the primary point of contact for general citizens. 99% of the citizens who are going to file these don't know the location of construction offices at pollution sites. Winter.

In the best interest of the female and male employees working in the sales office, I will request the board intervene immediately and require basic conditions be met to maintain a permit. So, documents can be served no problem

Remember, when men respected women and we're honorable?

Your motion is not worth the bandwidth it would take to file a response and should not be accepted for filing.

Here is the photo from Naper Commons. Pollution photos dominate my phone now and took a while to find. Again, I wish for the motion to be rejected without being filed, and the author sanctioned for dishonesty to the board.
