Case PCB-03-235 United Disposal Transfer Station

May 1, 2004

I have recently started my own company called Central Disposal of Bradley. As with any new business I will be struggling to make a name for myself and my assets are limited. I am looking for the most convenient and cost effective method by which to dump my trucks.

The restrictions on United Disposal's transfer has a trickle down effect and puts restriction on my business.

I support the change to their permit. This would help my business and I imagine a lot of other Business' and people in the County of Kankakee.

I also live in the vicinity of the transfer station and have had no problems living so close to the facility.

Sincerely,

A handwritten signature in cursive script that reads "Don Watson". A long horizontal line extends from the end of the signature across the page.

Don Watson
