Case PCB-03-235 United Disposal Transfer Station

Dear Members Of The Board,

As a neighbor to United Disposal I would like the Board to know of a recent incident that has touched the lives of myself and my family. I have two pure bred Blood Hounds that had recently gotten loose. After searching to no avail I got a call from the local animal control that my dogs were spotted at United Disposal. I proceeded to the facility where Mike Watson and his employees had caught one of my dogs and were still chasing the other one. In this fast paced, money hungry, dog eat dog world this man took time from his daily operation to assist someone he didn't even know. He was genuinely concerned and so helpful. It is nice to know there is someone like that in the neighborhood.

I live in the vicinity of this business and have never had or heard of anyone having problems with this facility. I'm glad I got a chance to meet Mike and wish him success in getting his permit changed. I want you to know I am in favor of this.

Thank You,

Diane Neal
