Dorothy Gunn, Clerk,
Illinois Pollution Control Board
James R. Thompson Center
Suite 11-500
100 W. Randolph St.
Chicago, IL 60601

Dear Ms. Gunn,

Due to family commitments, I was unable to attend the meeting at Cary Junior High regarding the potentially disastrous Waste Transfer Facility that is being proposed once again in Cary. As a 13-year resident of Cary, it is unthinkable to me that there be a Waste Transfer Facility built in the Cary area. Cary has it's own share of problems created by the rapid and continual growth in the area; the last thing we need is adding additional water, resource, smell, pollution, and traffic problems to our community.

We have lived with (and will live with) 2 & 4 lane roads for years in this area. They are crowded now, at times very over-crowded, especially with construction trucks, etc. Why would anyone even consider allowing the massive congestion and disruption of traffic which will be created by the trucks that will be going in and out of the waste management facility all day right in the very center of our largest and busiest intersection in town???

PLEASE DON'T ALLOW IT!!! We are strongly against this potentially hazardous resolution!!! We insist that you protect our community and our children. We want to preserve Cary as it is today...please don't allow the air, water, noise and land pollution which will be created by this project to destroy our community!!

If you need to contact me, please call me at 847-516-3708. If there are additional forms I should complete to voice how adamantly I am against this project, please let me know.

Thank you in advance for your attention in this manner.

Tammy L. Bauer
