## HEARING OFFICER ORDER

The following briefly describes the subjects and issues involved in this rulemaking. A comprehensive description is contained in the Board's opinion and order of October 19, 2023, proposing amendments in docket R24-08 for public comment, which opinion and order is available from the address below. As is explained in that opinion, the Board will receive public comment on the proposed amendment for 45 days from the date it appears in the *Illinois Register* before proceeding to adopt amendment based on this proposal.

The docket R24-08 proceeding relates to the Illinois definition of "volatile organic material" (VOM) in 35 Ill. Adm. Code 211.7150 of the Illinois air pollution control rules. This amendment would update the Illinois VOM definition that the United States Environmental Protection Agency (USEPA) adopted during the first half of 2023. USEPA proposed a rule in response to a petition to exclude HFO-1336mzz(E) from the definition of VOC. 88 Fed. Reg. 8226. The Board's proposal incorporates the exclusion of HFO-1336mzz(e) from the definition of VOC along with other non-substantive changes.

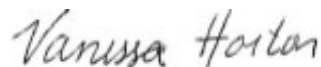

The Board will accept written public comment on this proposal for a period of 45 days after the date of publication in the *Illinois Register*. Comments should reference docket R24-08 and be addressed to:
