ENVIRONMENTAL PROTECTION AGENCY, )  
  )  
                                  Respondent. )

ORDER OF THE BOARD (by Dr. Satchell):

On March 17, 1980 Sanchez Energy Corporation, Inc., filed a petition requesting a variance from all of the Chapter 3: Water Pollution Rules and Regulations for a period of at least five years. The petition is deficient in a number of respects. It does not contain sufficient facts to establish that Petitioner needs a variance from all of Chapter 3. Furthermore, Petitioner's operation appears to be subject to Chapter 4: Mine Related Pollution. Procedural Rule 401(a)(1) requires specific identification of the particular provisions of the regulations. Procedural Rules 401(a)(4) and (5) require identification of the quantity and types of materials discharged and the nature and extent of the present failure to meet numerical standards. Procedural Rule 401(a)(10) requires interim discharge limitations. The petition will be subject to dismissal unless these deficiencies are corrected within forty-five days of the date of this Order. The ninety day decision period will commence with the filing of an amended petition.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 20<sup>th</sup> day of March, 1980 by a vote of 4-0.
