Case PCB-03-235
United Disposal Transfer Station

I am writing you to let you know I am a local Bradley resident and owner of a lawn care business in Bradley, Home Of Small Business is our Village motto. I have known and done business with Mike Watson, owner of United for 26 years.

My accounts vary to different cities in the County. However, I can only dump what comes from Bradley at United Disposal. What sense does this make. Furthermore how is anyone at United Disposal to determine or dispute where my waste comes from if I tell them it is from Bradley. It is a no win, catch 22 situation, and I certainly hope the Powers that be have more important issues in the community to focus on than who, what, and where someone's garbage is coming from.

I fully back United's efforts to change their permit to accept out of Bradley waste. It would help business's and residents alike. I hope you can see what a benefit to this community it would be.

Thank You For Your Time and Consideration,

Linden White
