ORDER OF THE BOARD (by J. Theodore Meyer):

This matter is before the Board on petitioner's status report filed on June 30, 1995. Petitioner states that it has continued its tank farm closure, decontamination and fire suppression installation activities which began in 1991, shortly after submitting a new RCRA Part B Permit application. The Illinois Environmental Protection Agency (Agency) issued a draft Part B Permit on March 15, 1995. Petitioner notes a public meeting was held on May 3, 1995 and the comment period closed June 2, 1995. The Agency advised petitioner that a permit could be issued as early as June 30, 1995. Petitioner expects to dismiss this appeal as soon as the permit is issued, and requests a status date of September 30, 1995.

The Board accepts petitioner's status report, noting the Agency's failure to file its own status report as requested. Recognizing that a RCRA Part B Permit may be issued in the near future in this matter, and that this case is almost 6 years old, the Board directs the parties to file another status report on or before September 5, 1995. The report shall include a synopsis of the activity in this appeal, and include an estimated time when the case might be resolved. Failure to file the status report in a timely manner will subject the petition to dismissal for want of prosecution.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 7<sup>th</sup> day of July, 1995, by a vote of 7-0.

  
Dorothy M. Gunn, Clerk  
Illinois Pollution Control Board
