

Support the adoption of the clean vehicle standards the Advanced Clean Trucks (ACT), Heavy-Duty Low-NOx Omnibus (HDO) and Advanced Clean Cars II (ACCII)

R24-17 public comment P.C. 579—April 25, 2025, 2:15 PM

Dear Pollution Control Board: As a resident of Illinois, I thank you for the opportunity to submit comments in support of adopting the proposed clean car and truck standards, which are critical to reducing air pollution in Illinois. I support the adoption of the clean vehicle standards—the Advanced Clean Trucks (ACT), Heavy-Duty Low-NOx Omnibus (HDO) and Advanced Clean Cars II (ACCII)—because of the air quality and lung health benefits these standards will provide for my community. I strongly support the request in the petition to adopt clean vehicle standards. Thank you for your time and consideration. **Mrs. Tammy De Deleonardis Sugar Grove, IL**

Dear Pollution Control Board: As a resident of Illinois, I thank you for the opportunity to submit comments in support of adopting the proposed clean car and truck standards, which are critical to reducing air pollution in Illinois. Thousands of people in Illinois have lung disease whether it is asthma or COPD or another pulmonary illness. I have asthma and was diagnosed in my thirties. Chicago gets a grade of F for ozone and particle pollution which is unacceptable! The recently released American Lung Association State of the Air Report found that too many people in Illinois, continue to live with unhealthy levels of ozone and particle pollution. This air pollution is a threat to human health at every stage of life. I support the adoption of the clean vehicle standards—the Advanced Clean Trucks (ACT), Heavy-Duty Low-NOx Omnibus (HDO) and Advanced Clean Cars II (ACCII)—because of the air quality and lung health benefits these standards will provide for my community. I strongly support the request in the petition to adopt clean vehicle standards. Thank you for your time and consideration. **Ms. Pamela Babler Chicago, IL**

R24-17 public comment 590 April 24, 2025, 5:30 PM

Dear Pollution Control Board: As a resident of Illinois, I thank you for the opportunity to submit comments in support of adopting the proposed clean car and truck standards, which are critical to reducing air pollution in Illinois. Illinois needs to continue to be an environmental leader despite the short-sighted and cynical activities of the Federal government that will attempt to sacrifice public health for corporate profits. Greater protections for public health are good for Illinois' fiscal health, reducing poor health burdens on local hospitals and state public health resources. I support the adoption of the clean vehicle standards—the Advanced Clean Trucks (ACT), Heavy-Duty Low-NOx Omnibus (HDO) and Advanced Clean Cars II (ACCII)—because of the air quality and lung health benefits these standards will provide for my community. I strongly support the request in the petition to adopt clean vehicle standards. Thank you for your time and consideration. **David Sincox Chicago, IL**
