Subject: [External] Docket R 2024-017 PC
Date: Friday, May 16, 2025 11:35:54 PM

Dear Don Brown,

Please docket this email as a public comment for R2024-017 in the Matter of Proposed Clean Car and Truck Standards: Proposed Section 35 Ill. Admin Code 242.

My public comment is in response to the IL EPA. This is an important issue that needs to be addressed to help fight environmental injustice, especially in communities that are primarily made up of immigrants and minorities. To help this city improve quality of life for all her citizens, this is a step in the right direction for companies to take accountability for the pollution they are causing.

I support the Illinois Pollution Control Board adopting the Proposed Clean Car and Truck Standards! These standards are important because as someone who lives in the Little Village neighborhood, I am constantly in contact with breathing in the fumes of diesel trucks that come and go from the scrap yards, factories, and industrial plants. Not only am I concerned about my health and the polluted air I breathe from these trucks, I also have family members who have asthma. They already can't breathe well, and the toxic chemicals that are a byproduct of these trucks makes their asthma much worse. I hope that one day I will not have to worry about my family member passing away of an asthma attack from breathing in this toxic air.

Thank you for your time.

Estefany Baumgardner-Leandro
