**Subject:** [External] RE: AS 2026-001 (CITGO Lemont Refinery Petition)  
**Date:** Friday, March 20, 2026 1:54:37 PM

---

Hello,

We are family of six and live in Lemont. We have a medically sensitive 3 year old daughter.

We were shocked to learn that CITGO's petition for CO limit relief was only published in the Joliet Herald News, and majority of us were left unaware.

I strongly oppose CITGO's request for relief from CO limits.

As a fenceline community, we were not properly informed and missed the opportunity to request a hearing.

This is unacceptable and was not ethical protocol for public notice. This petition should not move forward without proper community awareness and input.

Can you please respond and let me know if residents still have a chance to participate and share concerns moving forward?

Thank you,  
Carrie Eckberg and family  
Lemont Resident
