Subject: [External] As 2026-001 Costco Lemont Refinery Petition

Hello,

I am a Lemont/Romeoville resident and strongly oppose CITGO's request for relief from CO limits.

Many of us were never aware of this petition because notice was only published in the Joliet Herald News. As a fence-line community, we were not properly informed and missed the opportunity to request a hearing.

This does not feel like fair public notice, and this petition should not move forward without proper community awareness and input.

Thank you,
Cheryl George
