Subject: [External] Opposition to Citgo Refinery
Date: Monday, March 23, 2026 9:48:11 AM

Hello,

I live near the CITGO refinery and oppose the petition for CO limit relief. Residents in Lemont and Romeoville were not properly notified, and many of us were unaware until after the fact.

We should not be excluded from decisions that directly affect our air quality. Please reconsider this petition and the adequacy of public notice. Our subdivision is also opposed to a Gas and Car Wash next to our homes on 97th and Lemont Rd. We have private wells and our water safety also isn't being considered. Also, air pollution would could come from truck traffic and also pollute our air.

Please help keep our air and water clean.

Adriana Tewart
Lemont, IL
