APPEARANCE

The undersigned, as one of its attorneys, hereby enters an <u>APPEARANCE</u> on behalf of Respondent, Illinois Environmental Protection Agency.

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY

Vera Herst

Assistant Counsel

Division of Legal Counsel

DATED: January 19, 2005 Illinois Environmental Protection Agency 1021 North Grand Avenue East Post Office Box 19276 Springfield, Illinois 62794-9276 (217)782-5544

BEFORE THE ILLINOIS POLLUTION CONTROL BOARD CLERK'S OFFICE

Saluki Farms, LLC)	JAN 2 0 2005
(Property Identification Number) PCB 05- \ 30	STATE OF ILLINOIS
06-08-08-300-004)) (Tax Certification)	Pollution Control Board

RECOMMENDATION

The Illinois Environmental Protection Agency ("Illinois EPA") hereby files its

Recommendation pursuant to Section 125.204 of the regulations of the Illinois Pollution

Control Board, 35 Ill. Adm. Code 125.204.

- On April 2, 2004, the Illinois EPA received a request from Saluki Farms, LLC
 (log number TC-07-04, Exhibit A) for an Illinois EPA recommendation regarding
 the tax certification of water pollution control facilities pursuant to 35 Ill. Adm.
 Code 125.204.
- 2. The applicant's address is:

 Saluki Farms, LLC

 Walnut Hill Road

 Hoyleton, Illinois 62803
- 3. The proposed water pollution control facilities in this request are located at NE ¼ of SE ¼ Section 8, T1S, R2W of the 3rd P.M. in Washington County, at the above street address and consist of the following:

Livestock waste management facilities consisting of one concrete manure pit (101 ft. x 304 ft. x 8 ft. deep) with the slotted concrete portion of the floor over the manure pit and ten concrete pump out manure pits (each 6 ft. x 6 ft. x 8 ft. deep) located in each of two swine wean to finish buildings.

These livestock waste management facilities are used to collect, transport, and/or store livestock wastes prior to cropland application, and are further described in Exhibit A.

4. Section 11-10 of the Property Tax Code, 35 ILCS 200/11-10 (2004), defines "pollution control facilities" as:

"any system, method, construction, device or appliance appurtenant thereto or any portion of any building or equipment, that is designed, constructed, installed or operated for the primary purpose of: (a) eliminating, preventing, or reducing air or water pollution ...or (b) treating, pretreating, modifying or disposing of any potential solid, liquid or gaseous pollutant which if released without treatment, pretreatment modification or disposal might be harmful, detrimental or offensive to human, plant or animal life, or to property."

- 5. Pollution control facilities are entitled to preferential tax treatment, 35 ILCS 200/11-5.
- 6. Based on the information in the application and the purpose of the facilities, it is the Illinois EPA's engineering judgment that the described facilities may be considered "pollution control facilities," pursuant to 35 Ill. Adm. Code 125.200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in 35 Ill. Adm. Code 125.200, and are eligible for tax certification from the Board.

WHEREFORE, the Illinois EPA recommends that the Board issue the

requested tax certification.
