Subject: [External] Citgo
Date: Thursday, June 25, 2026 1:40:40 PM

Hello

I'm writing in opposition to Citgo refinery Lemont request for an adjustment to carbon monoxide emissions. We can not allow them to emit more harmful emissions into our air. We as people are always being asked to emit less, recycling more, waste less yet corporations are allowed to harm the environment and people more and more.

While we're in the subject of the environment, we need to do more to stop data centers.
