---

To the Illinois Pollution Control Board:

As a resident of Romeoville, I respectfully ask the Board to reject CITGO Petroleum Corporation's request for an adjusted carbon monoxide standard.

Adjusted standards should only be approved when the applicant clearly shows that they meet the requirements of Illinois law. In this case, CITGO has not provided enough evidence to show that the request meets those requirements.

The petition also does not adequately demonstrate that the proposed change would avoid significant negative impacts on public health or the environment. Existing environmental standards are in place to protect Illinois residents and should not be weakened without clear justification.

For these reasons, I urge the Illinois Pollution Control Board to deny the petition.

Respectfully,

Kelly Anda

Romeoville, IL 60446
