Dear Mr.Brown,

As a neonatal intensive care nurse for 43 years and a resident of Lemont for 32 years, I am asking that you oppose Citgo's request to release additional carbon monoxide into my air. As a healthcare provider I know how damaging this gas can be when released into the air. I live very close to Citgo and my children have also stayed in Lemont. My grandkids are now being subjected to unhealthy air. Please do the right thing and vote against this proposal. I'm sure if this was in your backyard you would vote against it.

Sincerely,

Alison B. Miklos
Lemont, IL. 60439
