Subject: [External] Citgo Case# AS 2026-001
Date: Friday, June 26, 2026 10:00:46 AM

As a resident of Lemont, I am writing to express my strong opposition to Citgo's petition to pollute our air with more carbon monoxide.

Elevated levels of outdoor CO are of particular concern for people with some types of heart disease such as my husband. These people already have a reduced ability for getting oxygenated blood to their hearts. Increased levels of CO make this even more difficult and dangerous.

Lemont's air needs to be safe for ALL our residents.

Sincerely,
Margaret Domzalski
Lemont
