Mr. Brown,

I realize you will be meeting today to discuss the CITGO carbon monoxide challenge that is facing those of us who live in Lemont and surrounding communities. My family and I are strongly opposed to you or the board approving the release of this harmful gas above the limits that have already been pre-established and voted on.

Health and safety are very important to our family. I hope and pray that you will do what is right regarding this manner that will protect the citizens of Lemont and other nearby communities.

Respectfully,

[Joseph J. Lopykinski, CPA](#)
