My name is Elvia Ayala, and I am a resident of Lemont. I am writing to express my strong concern about Citgo being allowed to continue polluting the air in and around our community.

My family and I live here because we care about our health and quality of life. We deserve clean air to breathe, and I am concerned about the potential impact that industrial emissions may have on residents, especially children, older adults, and those with respiratory conditions.

I respectfully ask the township to oppose any actions that would allow increased pollution and to do everything possible to protect the health of Lemont residents. Please advocate for stronger environmental protections, greater transparency regarding emissions, and meaningful accountability for companies operating in our area.

Thank you for taking the time to consider my concerns. I hope our community's health and future remain a top priority.

Sincerely,

Elvia Ayala  
Lemont, IL
