Subject: [External] AS 2026-001
Date: Sunday, June 28, 2026 5:11:12 PM

Good Evening Mr. Brown,

I am just writing to communicate my objection to Citgo's request to relax the standards at their refinery in Lemont. There is no need to relax these standards—they've been operating just fine with the standards in place. As a matter of fact, those standards could stand to be stricter. Please do not allow them to lessen these standards which will harm the countless people & young families in Lemont as well as the neighboring communities.

Thank you,
Stephanie Jerkovich
