## DEADLINEFOR DOMMENTS: 14 DAYS AFTER 6/25/26

To: IL Control Board Docket AS 20262001

Re: Deny Citgo's request for adjusted Carbon Monoxide standards

From: Citizens Against Ruining the Environment

I'm representing not only those in Will County and the surrounding areas but personally live one mile from the Lemont facility. We live with toxic air pollution and urge you not to not only lower Carbon Monoxide standards but request more stringent regulations. We appeal that you reconsider your request and give us cleaner air and groundwater standards.

Many say "this industry was here before you but almost 40 years ago this was a small chemical company and we had no idea that this would be purchased by huge polluting industries Citgo and that we'd be living in one of the most hazardous and toxic industries in the U.S.A.
