Subject: [External] AS 2026-001 (CITGO Lemont Refinery Petition)
Date: Thursday, July 9, 2026 10:49:26 PM

Sent from my iPhone Dear Members of the Illinois Pollution Control Board,

Please deny CITGO's petition.

It's 2026. Illinois should be strengthening environmental protections not weakening them. These standards have been in place for decades. If we're going to revisit them, let's make them stronger, not weaker.

Please put people before pollution. Protect our future, not corporate convenience. Deny this petition.

Thank you, Zilvine Petrusevicius
