[Illinois Part 813 Permitted Landfills List 8-11-2026.xlsx](#)

Jonathan,

Attached is a list of all Illinois landfills that are permitted under 35 Ill. Adm. Code 813, which establishes the procedural requirements for permitted landfills. As previously stated, the Illinois EPA does not maintain in its lists any information that distinguishes a landfill as public or private, or if a given landfill falls under Part 811 or Part 814. As a result, this list includes private and publicly owned landfills that are regulated under Part 811 and Part 814. It does not include Part 807 landfills. Please note, within the list are also landfills which are permitted for development only (section H) and those which have closed and completed post-closure care (section G).

Hi Jonathan,

It is my understanding that the Agency does not maintain a list identifying which facilities regulated under Parts 811 or 814 are privately owned or operated. The Board asked a similar question in the R22-18(A) proceeding, and relevant information should be available in the docket.

Electronic Filing: Received, Clerk's Office 08/12/2026 P.C. #4

Please see the Agency's June 11, 2026 filing, as well as Land and Lakes Company's June 11, 2026 response to the Board's questions.

Thanks,

Sara

Subject: Privately-owned/operated landfills under Parts 811 and 814

Good afternoon! I am tasked with analyzing the potential small business impact of R22-18(A) and am wondering if the Agency by any chance has a list of 811- or 814-regulated facilities that are either privately owned or privately operated.

I really appreciate your help.

Sincerely,
