PCB 24-43
(Permit Appeal – Alternative
Source Demonstration)

On August 25, 2026, Illinois Power Generating Company (IPGC) filed a motion to voluntarily dismiss this appeal, which concerns an alternative source demonstration (ASD) determination for a coal combustion residual surface impoundment at IPGC's Newton Power Plant located at 6725 North 500th Street, Newton, Jasper County. IPGC had filed a petition for review of a non-concurrence determination by the Illinois Environmental Protection Agency (IEPA) regarding IPGC's ASD. IPGC reports that on July 13, 2026, it submitted a second ASD and on August 10, 2026, IEPA issued a letter concurring with IPGC's determination. IPGC also reports that counsel for IEPA does not object to this motion. The Board grants IPGC's motion for voluntary dismissal, dismisses the appeal, and closes the docket.

IT IS SO ORDERED.

I, Daniel Pauley, Acting Clerk of the Illinois Pollution Control Board, certify that the Board adopted the above order on September 3, 2026, by a vote of 5-0.

Daniel L. Pauley

Daniel Pauley, Acting Clerk
Illinois Pollution Control Board
