ILLINOIS ENVIRONMENTAL PROTECTION AGENCY'S
RESPONSE TO PIPE'S MOTION FOR EXTENSION OF TIME

NOW COMES the Illinois Environmental Protection Agency ("Illinois EPA"), by and through one of its attorneys, Kyle Rominger, and submits the following in response to PIPE's Motion for Extension of Time:

In the interest of helping to expedite these proceedings and narrow the issues to be discussed at the upcoming hearing, the Illinois EPA has no objection to extending the deadline for PIPE's pre-filed questions until May 11, 2005, provided that the deadline for the Illinois EPA's pre-filed answers is likewise extended until May 25, 2004, and that the extension of these deadlines is not used in any way to extend or delay the upcoming hearing or anything else in this rulemaking.

In order to provide the parties with the additional information they need as soon as possible, and to continue the progress of this rulemaking in an expeditious manner, the Illinois EPA continues to desire that the additional hearing be held as soon as possible, preferably in the first half of June. When I discussed the deadline extensions with Ms.

ELECTRONIC FILING, RECEIVED, CLERK'S OFFICE, MAY 5, 2005

Manning, she indicated that PIPE would be amenable to a hearing during the first full week of June, specifically the week of the 7th, 8th and 9th, even with the requested extensions. The Illinois EPA will file its response to all of the other pre-filed questions by the original deadline of May 18th, so all parties will have sufficient time to review the Illinois EPA's responses prior to any hearing.

Finally, it appears there may be a misunderstanding about the dates the Illinois EPA is available for the additional hearing. The Illinois EPA *is available* during the latter part of June and for several days in July. The dates of unavailability listed in the Illinois Environmental Protection Agency's Dates of Unavailability filed on April 28th are accurate. The Illinois EPA is available on all of the dates not listed in that document.

Respectfully submitted,

ILLINOIS ENVIRONMENTAL
PROTECTION AGENCY
