Petition For Review

In regards to the Administration Citation we received concerning the (Beardstown/Logsdon Sand and Gravel. Mr. King should get his facts straight. We did put sand and brick on the lot on the directions of Troy Logsdon for the purpose of filling in and leveling the lot. When some iron and tin were discovered in it, we removed the tin and iron then leveled the sand and brick off. That was the extent of our involvement with the above mentioned property. We are not operators of the site nor have we ever been.

Sincerely,

Madalyn O'Hara, President
