Mr. Bradley Halloran, Hearing Officer
Illinois Pollution Control Board

Dear Ms. Gunn, and Mr. Halloran,

I have enclosed a copy of note from one of my physician's verifying that I have had significant health problems over the last several months. My health, the side effects of my medical condition, and the medications I am taking unfortunately have resulted in my having reduced abilities to carry on normal daily functions and routine, which have affected my abilities to be able to work on my noise complaint as is necessary.

The noise from the school's AC system continues, despite my offer to talk to the school superintendent about the noise problem in an effort to drop my complaint, and I am sure it will still be going on when I am medically/physically able to return working on this matter, and resume preparation for our hearing regarding the noise coming from the North Pointe school.

I will keep you both apprised of my situation, and advise you when I will be ready to resume consistent activity on hearing preparation, and I will await any further orders from you.

If you have any questions, feel free to contact me.

Thank you.

Sincerely,

Rebecca Lawrence
