Dated: April 7, 2005

inspection report setting forth the results of said inspection is attached hereto and made a part hereof.

VIOLATIONS

Based upon direct observations made by Kenneth Keigley during the course of his March 14, 2005 inspection of the above-named facility, the Illinois Environmental Protection Agency has determined that Respondents have violated the Illinois Environmental Protection Act (hereinafter, the "Act") as follows:

- (1) That Respondents caused or allowed the open dumping of waste in a manner resulting in litter, a violation of Section 21(p)(1) of the Act, 415 ILCS 5/21(p)(1) (2002).

- (2) That Respondents caused or allowed the open dumping of waste in a manner resulting in deposition of general construction or demolition debris or clean construction or demolition debris, a violation of Section 21(p)(7) of the Act, 415 ILCS 5/21(p)(7) (2002).

CIVIL PENALTY

Pursuant to Section 42(b)(4-5) of the Act, 415 ILCS 5/42(b)(4-5) (2002), Respondents are subject to a civil penalty of One Thousand Five Hundred Dollars (\$1,500.00) for each of the violations identified above, for a total of Three Thousand Dollars (\$3,000.00). If Respondents elect not to petition the Illinois Pollution Control Board, the statutory civil penalty specified above shall be due and payable no later than May 31, 2005, unless otherwise provided by order of the Illinois Pollution Control Board.

If Respondents elect to contest this Administrative Citation by petitioning the Illinois Pollution Control Board in accordance with Section 31.1 of the Act, 415 ILCS 5/31.1 (2002), and if the Illinois

Pollution Control Board issues a finding of violation as alleged herein, after an adjudicatory hearing, Respondents shall be assessed the associated hearing costs incurred by the Illinois Environmental Protection Agency and the Illinois Pollution Control Board. Those hearing costs shall be assessed in addition to the One Thousand Five Hundred Dollar (\$1,500.00) statutory civil penalty for each violation.

Pursuant to Section 31.1(d)(1) of the Act, 415 ILCS 5/31.1(d)(1) (2002), if Respondents fail to petition or elect not to petition the Illinois Pollution Control Board for review of this Administrative Citation within thirty-five (35) days of the date of service, the Illinois Pollution Control Board shall adopt a final order, which shall include this Administrative Citation and findings of violation as alleged herein, and shall impose the statutory civil penalty specified above.

When payment is made, Respondents' check shall be made payable to the Illinois Environmental Protection Trust Fund and mailed to the attention of Fiscal Services, Illinois Environmental Protection Agency, 1021 North Grand Avenue East, P.O. Box 19276, Springfield, Illinois 62794-9276. Along with payment, Respondents shall complete and return the enclosed Remittance Form to ensure proper documentation of payment.

If any civil penalty and/or hearing costs are not paid within the time prescribed by order of the Illinois Pollution Control Board, interest on said penalty and/or hearing costs shall be assessed against the Respondents from the date payment is due up to and including the date that payment is received. The Office of the Illinois Attorney General may be requested to initiate proceedings against Respondents in Circuit Court to collect said penalty and/or hearing costs, plus any interest accrued.

PROCEDURE FOR CONTESTING THIS
ADMINISTRATIVE CITATION

Respondents have the right to contest this Administrative Citation pursuant to and in accordance with Section 31.1 of the Act, 415 ILCS 5/31/1 (2002). If Respondents elect to contest this Administrative Citation, then Respondents shall file a Petition for Review, including a Notice of Filing, Certificate of Service, and Notice of Appearance, with the Clerk of the Illinois Pollution Control Board, State of Illinois Center, 100 West Randolph, Suite 11-500, Chicago, Illinois 60601. A copy of said Petition for Review shall be filed with the Illinois Environmental Protection Agency's Division of Legal Counsel at 1021 North Grand Avenue East, P.O. Box 19276, Springfield, Illinois 62794-9276. Section 31.1 of the Act provides that any Petition for Review shall be filed within thirty-five (35) days of the date of service of this Administrative Citation or the Illinois Pollution Control Board shall enter a default judgment against the Respondent.

General Comments:

On March 14, 2005 at 07:33 A.M., I, conducted an inspection at the Pirtle – Doucher – Bellemey property, located approximately 200 feet west of North Lincoln Avenue, on Wilbur Avenue, Urbana, Illinois as a follow up to an inspection conducted on September 13, 2002 during which open dumped construction/demolition debris was again observed. This inspection was conducted to investigate any clean or general construction/demolition storage or disposal at the site. The purpose of this inspection was to determine regulatory status and evaluate compliance with the Illinois Environmental Protection Act (Act) and Title 35 Illinois Administrative Code, Subtitle G: Land Pollution (Regulations). The inspection consisted of walking around the site, taking pictures, and talking to Mr. Willie Doucher, the property owner. The weather was sunny, the temperature 22 degrees.

According to a tax deed document number 2000R27936 dated November 9, 2000 the property belongs to Mr. Charles Bellemey, 13524 Third Street, Pekin, Illinois 61554-8679. Mr. Doucher has said he is buying the property on contract and Mr. Bellemey, in a letter received on December 12, 2001, stated that Mr. Doucher's attorney was preparing a purchase of contract to deed for the property.

Findings:

When I arrived on the property I turned on the TVA 1000 and noted that background readings were-.77 ppm on the PID and 1.78 ppm on the FID. I then walked down Wilbur Avenue approximately 200 feet to the area where activity had occurred in the past. As I walked Mr. Doucher arrived at the site and I introduced myself and explained that I was there to re-inspect the site as a former demolition debris-dump site. He said he was in the process of cleaning up from the winter. I asked him if he had time to accompany me on the inspection and he agreed to do so.

I first observed an area measuring approximately 45 feet by 30 feet where metal, plastic pipe, plastic containers, scraps of dimensional lumber, and a sink and counter top were scattered on the ground (see photo #1).

GIS Data: Latitude-N40.14205°, Longitude-W-088.22260° error 28.5 (Garmin GPSMap 76S)

I told Mr. Doucher that when the material was scattered without organization and not treated as if it had value that it was considered open dumped and that there was plastic and other non-recyclable material mixed in with it. TVA 1000 readings in this area remained near or at background.

Looking to the east I saw an area measuring approximately 30 feet by 35 feet where scraps of dimensional lumber, used tires, metal, plastic, asphalt shingles, and bricks mixed with soil had been dumped (see photos #2 and #3). I told Mr. Doucher that all this material was general construction/demolition debris and was considered to be open dumped. I explained that material such as this needed to be hauled directly to a transfer station or landfill and properly disposed. Mr. Doucher said it was just dirt but he would clean everything up. Checking the TVA 1000 readings across the area, near the waste, I noted that there were no readings above background.

Walking west I saw metal pipe, an electric motor, a doorframe, metal reinforcing mesh, and plastic that were scattered across the ground (see photo #4).

I also saw a truck that contained refuse including upholstered furniture and plastic bags of refuse (see photo #5). Mr. Doucher said that the material had been there for a time. I told him that the truck full of waste could only remain loaded on site for 24 hours then must be taken to a landfill and properly disposed.

Just north of the truck I saw twelve truck tires, some partially buried, and some overgrown with vegetation (see photo #7). Mr. Doucher said he intended to use the tires. I told him that the used tires must be stored so that they don't accumulate water. When he said that they weren't accumulating water I checked one and noted that it contained water (see photo #6).

Further west I saw a pile of soil mixed with scraps of dimensional lumber, pieces of asphalt shingles, and brick measuring approximately 4' x 5' x 1' (see photo #8). I told Mr. Doucher that the material was general demolition debris and should have gone to a permitted landfill or transfer station (see photo #8). He said it was dirt but that he would clean it up. TVA 1000 readings taken near the pile at different spots did not indicate readings above background.

In the same area I saw another pile of soil, scraps of dimensional lumber, plastic, and brick measuring approximately 10' x 4' x .5'. There were no elevated TVA 1000 readings around this pile of debris.

Looking back east I saw a large pile of soil mixed with concrete, bricks, bits of asphalt shingles, and scraps of dimensional lumber measuring approximately 25' x 15' x 5' (see photo #10). Mr. Doucher said the material was just dirt. I told him that I could see concrete, bricks, bits of asphalt shingles, and scraps of dimensional lumber mixed in the pile (see photo #11) and as such the material should have been disposed at a permitted landfill or transfer station. TVA 1000 readings remained around background as I checked various locations around the pile of material.

Further east I saw form lumber, a camper top, and some plastic pipe (see photo #12).

Walking further east I pointed out another small pile of construction/demolition debris measuring approximately 3' x 2' x 4" (see photo #13) and some brick and concrete mixed with a pile of dirt (see photo #14). I pointed out that the site did not have low areas to place fill in and the storage of demolition waste at the site was prohibited.

In the same area I pointed out a pile of gravel (see photo #16) and dirt mixed with gravel (see photo #15).

Back near where I had entered the active portion of the site I saw three more used tires, plastic, metal, and other refuse scattered about the area (see photo #17) and another small pile of pieces of asphalt shingles and scraps of dimensional lumber measuring approximately 3' x 2' x 2" (see photo #18). Mr. Doucher said he had scraped the latter pile of refuse from his truck to clean it out when he needed to get a load of gravel.

I told Mr. Doucher that the site had a lot of material on it that was general construction/demolition debris and could not be dumped there. I told him that there were possible penalties for dumping the demolition debris on the site. I also told him that he would be hearing from the Agency concerning the material.
