

ILLINOIS POLLUTION CONTROL BOARD
November 3, 1994

IN THE MATTER OF:)
)
PETITION OF KEYSTONE STEEL) AS 93-7
AND WIRE COMPANY FOR ADJUSTED) (Adjusted Standard)
STANDARD FROM HAZARDOUS WASTE)
FROM SPECIFIC SOURCES, 35 ILL.)
ADM. CODE 721.132)

ORDER OF THE BOARD (by E. Dunham):

On October 24, 1994, Keystone Steel and Wire Company (Keystone) filed a "Motion for Modification". Keystone requests modification of the Board's March 17, 1994 order which granted Keystone a RCRA delisting adjusted standard for its facility in Bartonville, Illinois. Keystone is requesting that the adjusted standard be extended to include an additional site at the facility. On November 2, 1994, the Illinois Environmental Protection Agency filed a response to the motion stating that it has no objection to the granting of the motion.

The Board recognize that this is an unusual circumstance in that this request is made well after the 35 day limit for reconsideration. However, the Board also recognizes that there are exigencies of time involved in this situation, where corrective action is already in progress. Rather than requiring the filing of an entirely new adjusted standard proceeding at this time, the Board will allow the petitioner to prove that this material is the same as that previously considered.

The Board finds that additional information is needed before the Board can review Keystone's request. Keystone shall provide additional information to the Board addressing the following issues:

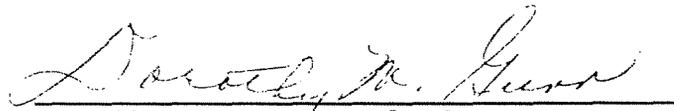

1. The similarities between the waste at the new site and the waste covered by the adjusted standard.
2. The differences between the waste at the new site and the waste covered by the adjusted standard.
3. The source of the waste and the similarities and differences between the source of the waste at the new site and the waste covered by the adjusted standard.
4. The amenability of the waste from the new site to the treatment described in the adjusted standard.

Keystone shall submit the additional information to the Board on or before November 21, 1994. Keystone shall also serve a copy of the additional information on the Agency. Any response from the

Agency shall be filed with the Board on or before November 28, 1994.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 2nd day of November, 1994, by a vote of 6-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
