

ILLINOIS POLLUTION CONTROL BOARD

July 1, 1993

IN THE MATTER OF:)
)
THE PETITION OF CABOT CORP. FOR) AS 91-10
AN ADJUSTED STANDARD FROM THE) (Adjusted Standard)
REQUIREMENTS OF 35 Ill. Adm.)
Code 725.293)

ORDER OF THE BOARD (by J. Anderson):

By our order of January 21, 1993 the Board required Cabot Corp., in part, to submit a status report as follows:

Cabot shall submit a status report to the Board no later than June 30, 1993 that clearly delineates the status of its "Part 620 working plan", the general nature of any results then already submitted to the Agency, and the general nature of any responses received from the Agency.

On June 29, 1993, Cabot filed such a document with the Board. That document outlines Cabot's efforts towards resolving outstanding issues with the Agency.

In its status report, Cabot represents that the Agency approved its December 17, 1992 "investigation work plan" by a letter dated March 1, 1993. According to Cabot Corp., the field work in this plan took place in March and April, and it is currently analyzing the data. Cabot intends to submit the report from this study to the Agency in the first half of July. Cabot further states that it presently anticipates draft Agency action on its RCRA Part B permit application in September, 1993 and that this action may resolve groundwater issues still outstanding between it and the Agency. Cabot states that after it has received the draft Part B permit, it will know whether it will pursue the adjusted standard or to withdraw its petition. Cabot represents as follows: "Cabot either will obtain an adjusted standard or install secondary containment for its tank systems by the dates secondary containment is required."

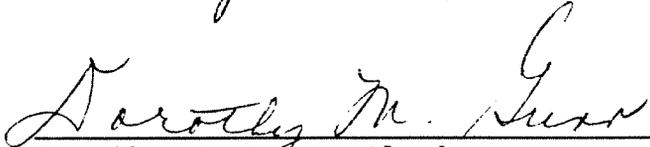

For the foregoing reasons, the Board hereby modifies Condition A of the previously-granted January 21, 1993 stay of this proceeding through December 31, 1993 on TK-0048 & TK-0051. The stay is subject to the following conditions:

- A. Cabot shall submit a status report to the Board no later than September 30, 1993 that clearly delineates the further action it intends in this proceeding in light of its draft Part B permit, the general nature of any unresolved issues in light of the Agency's actions, and the dates by which Cabot intends to pursue those further actions; and

- B. Cabot will timely comply with the RCRA secondary containment standards of 35 Ill. Adm. Code 725.293, except as otherwise provided by Board order or regulation.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, do hereby certify that the above order was adopted by the Board on the 1st day of July, 1993, by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
