Respondent.)	

ORDER OF THE BOARD (by J.C. Marlin):

This matter comes before the Board on receipt of an Agency Recommendation dated May 20, 1992 . The recommendation refers to a request from Petitioner, Village of Wataga, for a provisional variance for its Knox County facility from the biochemical oxygen demand (CBOD₅), and suspended solids (TSS) effluent requirements, as set forth in 35 Ill. Adm. Code 304.102(a) and 304.141(a), for the period from when the Petitioner begins replacing the lagoon aeration system within their North Sewage Treatment plant, and continuing until the Petitioner returns that unit to service, but not for longer than 45 days.

The Agency recommends that the Board grant the requested provisional variance with specified conditions. The Agency agrees that the repairs are necessary. The Agency anticipates that the requested provisional variance would have minimal environmental impact on the receiving stream. The Agency is unaware of any public water supplies that the requested provisional variance would adversely impact. The Agency maintains that a grant of a provisional variance would violate no federal laws. The Agency finds that a denial of the requested provisional variance would create an arbitrary and unreasonable hardship on the Petitioner.

The responsibilities of the Agency and the Board in these short-term provisional variances are different from the responsibilities in standard variances. See Ill. Rev. Stat. 1989, ch. 111 $\frac{1}{2}$, pars. 1035(b) & (c). In provisional variances it is the responsibility of the Agency to make the technical determinations and finding of arbitrary or unreasonable hardship. The Board's responsibility is to adopt a formal Order, to assure the formal maintenance of the record, to assure the enforceability of the variance, and to provide notification of the action by a press release.

Having received the Agency recommendation finding that a denial of the requested relief would impose an arbitrary and unreasonable hardship, the Board hereby grants Petitioner a

provisional variance from 35 Ill. Adm. Code 304.102(a) and 304.141(a), on the following conditions:

1. The term of this provisional variance shall commence when the Petitioner, Village of Wataga, removes Cell #1 of the lagoon from service, and it shall expire after 45 days have elapsed;
2. During the term of this provisional variance, the effluent from the Petitioner's treatment plant shall not exceed concentrations of 60 mg/l CBOD₅ or 75 mg/l TSS (each on a concentration basis);
3. The Petitioner shall notify Agency's by written confirmation, at the address below, when it removes Cell #1 of the lagoon from service and when it returns the unit to service, and the Petitioner shall confirm this notice in writing within five days, addressed as follows:

Illinois Environmental Protection Agency
Division of Water Pollution Control
Compliance Assurance Section
2200 Churchill Road
P.O. Box 19276
Springfield, Illinois 62794-9276

Attention: Mark T. Books

4. The Petitioner shall perform the necessary maintenance and modification work as expeditiously as possible and operate its plant during the term of this provisional variance in a manner that assures the best effluent practicable, including the monitoring of dissolved oxygen concentrations in Aeration Cell No. 2 on a daily basis during the construction period; and
5. The Petitioner shall execute a copy of a Certificate of Acceptance of this provisional variance and forward that copy to the Agency addressed as is the written notice required in the above condition; the Petitioner shall forward that copy within 10 days of the date of this Order of the Board, and the Certificate of Acceptance shall take the following form:

CERTIFICATION

I (We), _____,
hereby accept and agree to be bound by all terms
and conditions of the Order of the Pollution
Control Board in PCB 92-77, May 21, 1992.
