 Respondent.)

ORDER OF THE BOARD (by G.T. Girard):

On June 15, 1992, the parties filed a status report as directed by the Board's order of April 9, 1992. The parties report that they have continued to pursue settlement of this matter, and that they have agreed on a basis for resolving the issues involved in this appeal. By July 1, 1992, Olin will submit to IEPA a modified closure plan with respect to three units involved in this appeal. This date reflects a one month extension of the previously agreed-upon submittal date. The extension was agreed upon to allow Olin the opportunity to install piezometers at the site in order to establish the direction of groundwater flow and select proposed monitoring well locations. The parties have agreed upon the elements to be included in the closure/post closure plan, but the details are subject to review and approval by IEPA and the U.S. Environmental Protection Agency. The parties are reasonably confident that they will agree on plan conditions which will lead to IEPA approval of the modified closure/post closure plan. Upon approval of the modified closure/post closure plan, Olin will move for the dismissal of this appeal.

To insure that this matter be resolved as expeditiously as practicable, the Board directs the parties to file another status report with the Board to be received by the Board no later than July 15, 1992.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 3rd day of June, 1992, by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
