ORDER OF THE BOARD (by J. Theodore Meyer):

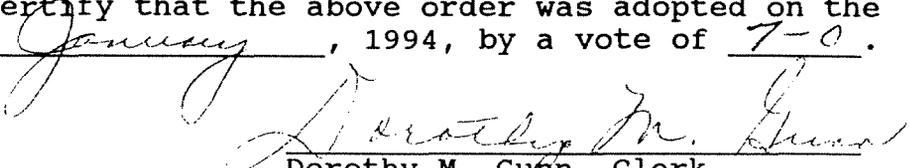

On January 4, 1994, petitioner CWM Chemical Services, Inc. (CWM) filed a status report in this proceeding. The status report is in response to the Board's April 23, 1992 order staying this permit appeal. As part of that stay, the Board ordered CWM to file a status report every 90 days.

This status report recounts the progress being made by CWM and the Illinois Environmental Protection Agency (Agency) on the Agency's review of CWM's November 1991 RCRA Part B permit application. CWM states that it has met with the Agency, and that it has supplied the Agency with additional information. CWM states that it anticipates Agency approval of the Part B permit in early 1994.

The Board accepts the status report. However, we must note our concern with the progress of this case. Although we recognize that review of a Part B permit is a lengthy process, the application has now been pending at the Agency for over two years. The Board reminds CWM that it has a continuing obligation to submit status reports every 90 days.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 6th day of January, 1994, by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
