

ILLINOIS POLLUTION CONTROL BOARD
November 18, 1993

IN THE MATTER OF:)
)
PETITION OF GENERAL MOTORS) R93-13
CORPORATION TO AMEND)
35 ILL. ADM. CODE 303.322)
(Site Specific Regulation for)
Fluoride))

ORDER OF THE BOARD (by C.A. Manning):

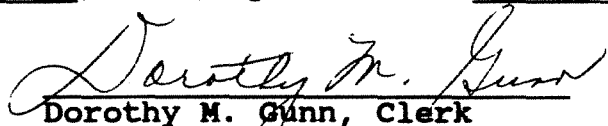

This matter is before the Board pursuant to a Motion to Cancel Hearing and Stay Proceeding filed by the General Motors Corporation on November 12, 1993. On June 23, 1993, General Motors filed a petition seeking site specific relief regarding the fluoride water quality standard in the receiving waters at its facility located in Danville, Illinois. By hearing officer order, the Board set this matter for hearing on December 7, 1993 in Danville.

The motion provides that in preparing for hearing and reviewing past Board decisions and additional data on plant operations, General Motors recognized it needed to expand the scope of its site specific relief to include total dissolved solids (TDS). General Motors intends to file an amended petition within sixty days and requests that the Board cancel the December 7th hearing and stay this matter until such time as the amended petition is filed.

We hereby grant the Motion to Cancel Hearing and Stay Proceedings. The Board directs General Motors to file within sixty days of the entry of this order, either the amended petition or a request that the stay be extended for a time certain.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, do hereby certify that the above order was adopted on the 18th day of November, 1993, by a vote of 5-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
