

ILLINOIS POLLUTION CONTROL BOARD
September 1, 1994

IN THE MATTER OF:)
)
REVISIONS OF TREATABILITY) R94-18
TESTING EXCLUSION LIMITS) (Rulemaking)
AMENDMENTS TO 35 ILL. ADM.)
CODE SECTIONS 721.104(f)(3),)
(4) and (5))

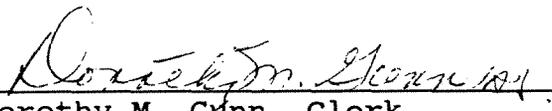

ORDER OF THE BOARD (by E. Dunham):

On August 24, 1994, Burlington Environmental Inc. (Burlington) filed a comment concerning the necessity of this rulemaking considering the proposed identical-in-substance rulemaking in R94-17 as requested by the Board's order of July 21, 1994. Burlington agrees that the language of the proposed identical-in-substance rulemaking is equivalent to the language requested in this rulemaking. Burlington also agrees that the identical-in-substance rulemaking presents a streamlined and expedited method of revising the exclusion limits. However, Burlington requests that this matter not be dismissed as "unnecessary". Burlington requests that the Board extend the stay in this matter until the completion of the identical in substance rulemaking.

The Board grants an extension of the stay in this matter. As the Board does not favor indefinite stays, the Board will grant a stay in this matter until January 3, 1995. The Board believes that this provides adequate time for the completion of the identical-in-substance proceeding and for Burlington to determine how to proceed with this rulemaking. The Board also orders Burlington to provide the Board with a status report on January 3, 1995.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 1st day of September, 1994, by a vote of 6-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
