ORDER OF THE BOARD (by J. Anderson):

On September 7, 1993, Spraying Systems Company ("SSC") and the Illinois Environmental Protection Agency ("IEPA") filed a Joint Status Report pursuant to the Board's order of July 22, 1993. The report states that this matter involves an appeal by SSC of certain conditions contained in IEPA's Closure Plan approval with respect to two drum storage areas and an underground waste oil storage tank at SSC's Wheaton, Illinois facility. On August 3, 1992, SSC submitted to the IEPA a proposed RCRA Closure Work Plan for additional subsurface investigation at the site. IEPA reviewed the work plan, and provided its comments to SSC on April 1, 1993.

On April 22, 1993, SSC met with the IEPA in Springfield to discuss the proposed work plan. As a result of these discussions, the work plan was ultimately approved by the IEPA in May, 1993. The report states that through its consultant, Geraghty & Miller, SSC has completed most activities described in the work plan. SSC anticipates that the plan will be completed by the end of this month.

The parties state that they remain desirous of settling this appeal. SSC awaits a proposal from the IEPA regarding a means for resolving this matter. Under these circumstances, the parties continue to be optimistic about the prospects for settlement of most, if not all, of the issues pending in this appeal.

The Board notes that SSC has granted a waiver of the decision deadline to and including April 30, 1994. The parties are directed to file a revised status report on or before December 10, 1993.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify, that the above order was adopted on the 9th day of September, 1993, by a vote of 7-0.

Dorothy M. Gunn
Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
