ORDER OF THE BOARD (by J. Theodore Meyer):

This matter is before the Board on the parties' joint status report filed on June 6, 1995. The parties state that they have worked together to resolve several permit denial issues while awaiting the outcome of a related matter, AS 94-8, which will resolve the permit conditions regarding thermal discharges. The parties noted that hearing on AS 94-8 was held on April 10, 1995, with post-hearing comments filed on May 25, 1995. After AS 94-8 is decided, the Illinois Environmental Protection Agency (Agency) intends to issue a draft permit to Acme Steel. The parties then suggested that this matter be stayed until the resolution of the Adjusted Standard petition in AS 94-8.

The joint status report is hereby accepted and the Board grants a 60-day stay in this matter. The parties are directed to file another status report on or before August 7, 1995. The report shall include a synopsis of the activity in this consolidated appeal, and include an estimated time when the case might be resolved. Failure to file the status report in a timely manner will subject the petition to dismissal for want of prosecution.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 8<sup>th</sup> day of June, 1995, by a vote of 7-0.

  
Dorothy M. Gunn, Clerk  
Illinois Pollution Control Board
