ORDER OF THE BOARD (by C.A. Manning):

On September 5, 1991, General Motors Corporation, Electro-Motive Division ("GM") filed a petition for an air variance for its facility located in LaGrange, Illinois. On September 15, 1992, GM submitted comments to the U.S. EPA regarding a proposed federal rule applicable to GM's locomotive coating operations. Since that time, the parties have been submitting reports to the Board on the status of this case while U.S.EPA considers GM's comments. On March 25, 1994, U.S. EPA published the final rule in the federal register with an effective date of April 25, 1994 (58 Fed. Reg. 14110.)

On May 16, 1994, petitioner filed a motion to voluntarily dismiss the petition without prejudice. The motion is hereby granted. This matter is dismissed and the docket is hereby closed.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 19th day of May, 1994, by a vote of 6-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
