No. 403

April 25, 1990

APPELLATE COURT REMANDS NPDES PERMIT APPEAL TO BOARD

In Citizens Utilities Co. of Illinois v. IEPA, PCB 85-140, the Board upheld the Agency's imposition of a condition in an NPDES permit issued to Citizens Utilities Co. (Citizens). Citizens filed a motion for rehearing and requested that the Board consider its decision in light of evidence not previously considered by the Agency in rendering its permit decision. The Board denied the motion on the basis that the scope of the Board's review in a permit review is limited to the record as it existed before the Agency at the time of the Agency's permit decision. Relying on section 105.102(b)(8) of the Board's regulations, the appellate court ruled that the Board had misconstrued the scope of review, vacated the Board's order and remanded the cause to the Board for further proceedings consistent with the court's opinion. (Citizens Utilities Co. of Illinois v. PCB, 549 N.E.2d 920 (3d Dist. 1990).)

APPELLATE COURT AFFIRMS AND MODIFIES BOARD DECISION IN PCB 86-27, IEPA v. MODINE MANUFACTURING

On February 1, 1990, the Second District Appellate Court issued its decision in Modine Manufacturing Company v. Illinois Pollution Control Board and Environmental Protection Agency, No. 2-89-0441. The decision is an outgrowth of Modine Manufacturing Company v. Pollution Control Board and Environmental Protection Agency, No. 2-88-0176 (2d. Dist. 1988). In that opinion, the Court struck one count (emissions violations) of a two count complaint and remanded the case to the Board to reconsider the \$10,000 penalty in light of the remaining count, operating without a permit. On remand, the Board again imposed a \$10,000 civil penalty against the company for the remaining violation. Modine filed the current appeal challenging the Board's decision to impose the \$10,000 penalty. In its February 1, 1990, Opinion, the Court reduced the penalty to \$1,000 because it concluded that the imposition of the \$10,000 penalty was not commensurate with the severity of the violation and would not aid in the enforcement of the Act.

BOARD ADOPTS AMENDMENTS TO PHOSPHORUS EFFLUENT STANDARDS IN R87-6

On April 12, 1990, the Board adopted a Final Opinion and Order (6-1) that amends the phosphorus effluent standards contained in 35 Ill. Adm. Code, Subtitle C: Water Pollution. The rulemaking was initiated by the Illinois Environmental Protection Agency on March 20, 1987.

The rule limits point source phosphorus effluent discharges to 1.0 milligrams per liter (mg/l) when the discharge is into a lake or reservoir (or an adjoining tributary) with a surface area of 8.1 hectares or more and when the untreated waste load is 2500 or more population equivalents and does not use a third-stage lagoon treatment system. The rule will not apply, however, where the receiving lake or reservoir, including any side-channel reservoir or other portion, exhibits a mean hydraulic retention time (on an annual basis) of 0.05 years (18 days) or less.

The rule also specifies the essential elements for justifying relief from the phosphorus standard. These provisions distinguish between point sources which are at least 25 miles upstream from the receiving lake or reservoir and those which are nearer. They require applicants to demonstrate, based on lake and watershed-specific factors, that the effluent phosphorus will not contribute to cultural eutrophication of the lake or reservoir.

The Joint Committee on Administrative Rules (JCAR) issued a Certificate of No Objection on April 3, 1990.

Copies of this Opinion and Order are available upon written request of the Clerk of the Board. The text of the regulatory changes will appear shortly in the Illinois Register.

BOARD PROPOSES CALIFORNIA MOTOR VEHICLE STANDARDS FOR FIRST NOTICE (R89-17)

On April 12, 1990, the Board proposed, for First Notice, adoption of portions of the California motor vehicle emissions control program in Illinois. California has historically had stricter emission standards for ozone precursors emitted from mobile sources. In a further attempt to attain compliance with the federal health-based air quality standards, the Board has proposed that portions of the California program be adopted in Illinois for passenger cars, light-duty trucks, and medium-duty vehicles (vehicles with a gross vehicle weight rating of 8500 pounds or less). The proposed regulations impose stricter emission standards for nitrogen oxides, non-methane hydrocarbons, and carbon monoxide. The proposal also includes regulations on certification procedures, testing, and importation. The proposed rules would be effective with 1993 and subsequent model year vehicles, motor vehicle engines, and aftermarket parts. The Board established two subdockets in this proceeding: Docket A would allow a phase-in of the standards, while Docket B would require all 1993 vehicles to comply with the stricter California standard.

The Board will accept comments on the advisability of requesting that the Department of Energy and Natural Resources perform an economic impact study until May 3, 1990. Additionally, there will be a 45-day written public comment period beginning on the date of publication of the proposal in the Illinois Register. (That publication is scheduled for early May.) Copies of the Board's First Notice Opinion and Order are available upon request of the Clerk of the Board. Questions on this proposal may be directed to Elizabeth Harvey at 312/814-6921.

BOARD ADOPTS PRETREATMENT UPDATE (R89-12)

R89-12 updated the pretreatment rules to cover USEPA rules adopted from January 1 through June 30, 1989. The pretreatment rules govern discharges by industrial users to publicly owned treatment works (POTWs).

The amendment to Section 307.2490 excludes "Anti-knock fuel additive/Blending purchased tetraethyl lead & tetraethyl lead additives" from the list of "non-complexed metal-bearing waste streams and cyanide-bearing waste streams" under lead in the organic chemicals, plastics, and synthetic fibers (OCPSF) category. The revision to Section 307.2491 excludes "Vat dyes/Mixing purchased dyestuffs (Anthraquinones, polycyclic Quinones and Indigoids)" under chromium and copper from the list of "complexed metal-bearing waste streams" in that category. The amendments to Sections 307.8103(c)(1), 307.8103(d)(1), 307.8109(c)(1), and 307.8109(d)(1) provide an alternative to zero discharge of process wastewaters from tube reducing for new and existing

sources in the nickel-cobalt and zirconium-hafnium forming subcategories of the nonferrous metals forming and metal powders point source category.

Under the amendments, such entities may discharge their wastewaters if the results of monthly chemical analyses show no levels of three nitrosamines above the detection limits for method 1625. Finally, the Board amended the 35 Ill. Adm. Code 310.110 definition of "sludge requirements" to incorporate any requirements imposed by NPDES permit condition, whether by the Agency or USEPA.

BOARD PROPOSES RCRA UPDATE (90-2)

On April 12, 1990, in R90-2, the Board proposed to update the RCRA hazardous waste regulations to include USEPA amendments for the period July 1 through December 31, 1989. This update includes the following USEPA actions: mining waste exclusion; corrections to first third bans; and, listing of methyl bromide and aliphatic chlorination wastes.

The proposed rules will appear in the Illinois Register shortly. The Board will receive public comment for 45 days after the date of publication. Persons who wish to be on the mailing list should contact Morton Dorothy at (217) 333-5575.

RESTRICTED STATUS AND CRITICAL REVIEW LISTS IN THIS ISSUE

The Illinois Environmental Protection Agency, Division of Public Water Supplies, Permit Section, is publishing copies of the Division's Restricted Status and Critical Review lists in this issue of the Environmental Register. The lists are being published here as part of the quarterly notification to the public. The lists have been slightly modified to reflect changes made since the previous publication.

BOARD AND STAFF ACTIVITIES

On March 26th, Chairman John Marlin spoke in Covington, Indiana to a group of 130 Farm Bureau leaders from East Central Illinois. He spoke on environmental concerns related to the 1990 Farm Bill.

On Saturday, March 21st, Dr. Marlin was the keynote speaker at a solid waste seminar in Springfield. The seminar was jointly sponsored by the Illinois Solid Waste Association and Illinois Association of County Boards and Commissions.

Dr. Marlin was the keynote speaker at the 55th Annual Conference of the Illinois Association of Water Pollution Control Operators in Springfield on April 17th. He spoke on "Issues in the Illinois Regulatory Environment".

FOR YOUR INFORMATION

A conference on The Lake Calumet Area: Environmental Concerns will be held May 8-9, 1990 at the Holiday Plaza Complex in Matteson, Illinois. This conference is being sponsored by the Illinois State Water Survey, the Hazardous Waste Research and Information Center, and the Illinois Department of Energy and Natural Resources.

The Lake Calumet area has been the subject of numerous research efforts. This conference will offer an opportunity to consolidate this information, as and to provide a focus for ongoing and future research activities.

The program will include a historical overview of the area's environmental concerns, a look at the current issues, a summary of research conducted on the air, water, and land quality of the Lake Calumet areas, and a discussion of possible solutions to the environmental problems of the region. Representatives from the scientific community, regulatory agencies, industry and environmental groups have been invited to present their viewpoints.

The registration fee for the conference is \$35, and includes a conference preprint volume. To obtain registration information, send your name and address to: Lake Calumet Conference, c/o Illinois State Water Survey, 2204 Griffith Drive, Champaign, IL 61820, or call Steve Hilberg at 217/333-4895.

**SUBSCRIPTION SERVICE FOR BOARD OPINIONS
AND REGULATIONS AVAILABLE**

Copies of Opinions issued by the Illinois Pollution Control Board in pollution enforcement, variance, permit and landfill site location suitability appeals, and regulatory matters are available in loose-leaf form on an annual subscription basis covering the period July 1, 1989 through June 30, 1990. For information about obtaining the original loose-leaf binders containing prior Opinions, please contact Sandra Wiley, administrative manager, at 814-3623. These copies will be distributed to subscribers at an annual subscription rate of \$350.00. Loose-leaf binders are included, and will be furnished as volumes are added to the sets. If you are interested in subscribing, please complete and submit the following order form.

Enclosed is a check in the amount of three hundred and fifty dollars (\$350.00) made payable to the Illinois Pollution Control Board for the subscription service to the Illinois Pollution Control Board Opinions and Regulations service for the period covering July 1, 1989 through June 30, 1990. FINAL ACTIONS APRIL 12, 1990 BOARD MEETING

- PCB 89-53 Lefton Iron and Metal Co., Inc., a Missouri Corp. v. City of East St. Louis - The Board ordered respondent to rid certain avenues of all debris and to cease and desist from allowing the open dumping of waste on said streets in St. Clair County.
- PCB 89-118 Highland Supply Corp. v. IEPA - This matter was dismissed on petitioner's motion.
- PCB 89-188 City of East Moline v. IEPA - The Board accepted the Agency Recommendation and granted petitioner variance extension from the Board's public water supply regulations concerning Standards for Issuance and Restricted Status relating to the maximum allowable concentration for trihalomethanes in public drinking water at its Rock Island facility. Board Members J. Dumelle and B. Forcade concurred.
- PCB 90-33 National Steel Corp. v. IEPA - This matter was dismissed on the Agency's motion.
- PCB 90-48 City of Wenona v. IEPA - The Board accepted the Agency Recommendation and granted petitioner provisional variance, with conditions, from the Board's water pollution regulations relating to biochemical oxygen demand, total suspended solids and fecal coliform effluent limitations at its Marshall County facility.
- PCB 90-49 Barber-Coleman Co. v. IEPA - The Board accepted the Agency Recommendation and granted petitioner provisional variance from the Board's waste disposal limitations concerning 90-day on-site limitations for hazardous wastes at its Winnebago County facility.
- PCB 90-50 E.D. Etnyre & Co. - The Board accepted the Agency Recommendation and granted petitioner provisional variance from the Board's waste disposal limitations concerning 90-day on-site limitations for hazardous wastes at its Ogle County facility.
- AC 89-162 IEPA v. Land & Lakes Co. - The Board issued a default order against respondent, found it had violated Sections 21(p)(5) and 21(p)(1) of the Act, and imposed a fine of \$1,000.
- AC 89-175 IEPA v. Stryker International, Inc. - The Board granted respondent's motion to dismiss its petition for review, found respondent violated Section 21(p)(5) of the Act, and imposed a fine of \$500.
- AC 89-191 IEPA v. Adolph Lo - This matter was dismissed on the Agency's motion.
- AC 89-196 IEPA v. Wayne Molen - The Board, on its own motion, issued a default order against respondent, found he had violated Section 21(q)(1) of the Act, and imposed a fine of \$500.
- AC 89-299 IEPA v. City of Streator - This matter was dismissed on the Agency's motion.
- AC 90-16 Jackson County v. Frank Edwards - This matter was dismissed on complainant's motion.
- AC 90-18 County of Madison v. Roger Stunkel - The Board found respondent violated Section 21(p)(5) of the Act and imposed a fine of \$500.
- AC 90-19 County of Madison v. Ray Arthur - The Board found respondent violated Section 21(p)(5) of the Act and imposed a fine of \$500.
- AS 90-3 In The Matter Of: Petition of Laclede Steel Co. for Adjusted Standard from 35 Ill. Adm. Code 302.102, 302.208, 302.210, and Subpart F, Procedures for Determining Water Quality Criteria - This matter was dismissed on the Agency's motion. Board Member J.D. Dumelle dissented.

NEW CASES - APRIL 12, 1990 BOARD MEETING

- PCB 90-41 Village of Elburn v. IEPA - Petitioner seeks variance extension from the Board's public water supply regulations concerning Standards for Issuance and Restricted Status relating to combined radium-226 and radium-228 for its Kane County facility. Held for Agency Recommendation.
- PCB 90-42 Stepan Co. v. IEPA - Petitioner seeks review of the Agency's denial of its application for renewal of its air operating permit for its Will County facility. Hearing authorized.
- PCB 90-43 Town of Cortland v. IEPA - Petitioner seeks variance from the Board's public water supply regulations concerning Standards for Issuance and Restricted Status relating to combined radium-226 and radium-228 for its DeKalb County facility. Held for Agency Recommendation.

PCB 90-44	<u>Monsanto Co. v. IEPA</u> - Petitioner seeks variance from the Board's air pollution regulations for its St. Clair County facility. Hearing authorized.
PCB 90-45	<u>Minnesota Mining & Manufacturing Co. v. IEPA</u> - Petitioner seeks variance extension from the Board's May 11, 1989 Order to allow for installation of thermal oxidizers at its Cook County facility. Hearing authorized.
PCB 90-46	<u>Rockford Drop Forge Co. v. IEPA</u> - Petitioner seeks review of its application for reimbursement from the Underground Storage Ground Fund for corrective action taken at its Winnebago facility. Hearing authorized.
PCB 90-47	<u>Darrell Williams v. Shell Oil Co.</u> - Complainant alleges violation of the Board's noise pollution regulations at respondent's Madison County facility. Held for duplicitous/frivolous determination.
PCB 90-48	<u>City of Wenona v. IEPA</u> - See Final Actions.
PCB 90-49	<u>Barber-Coleman Co. L2010300054/Winnebago County v. IEPA</u> - See Final Actions.
PCB 90-50	<u>E.D. Etnyre & Co. L1418170023/Ogle County v. IEPA</u> - See Final Actions.
PCB 90-51	<u>In The Matter Of: LTV Steel Co., Inc. v. IEPA</u> - Petitioner seeks review of the Agency's denial of its application for operating permit renewal for its Cook County facility. Hearing authorized.
