APPELLATE COURT AFFIRMS BOARD'S DENIAL OF REQUEST FOR SITE-SPECIFIC RELIEF FROM SEWER OVERFLOW REGULATIONS

In *City of Mendota v. IEPA*, R 88-6 the Board denied Mendota's request for site-specific relief from 35 Ill. Adm. Code 306.304 governing sewer overflows on the bases that Mendota failed to meet its burden of establishing that compliance was technically infeasible and economically unreasonable and that granting the relief would be inconsistent with the statutory purpose of restoring, maintaining and enhancing the purity of the state's water. The appellate court agreed with the Board and affirmed the Board's denial of the requested relief. (*City of Mendota v. PCB*, 549 N.E.2d 26 (3d Dist. 1990).

BOARD ALLOWS USE OF UST STATE FUND (R89-19)

On April 26, 1990, in R89-19, the Board amended the Underground Storage Tank (UST) rules to allow the use of the UST State Fund in lieu of private financial mechanisms. The new Section is 35 Ill. Adm. Code 731.200. Filing is expected around May 22, 1990.

USEPA adopted financial responsibility requirements for USTs on October 26, 1988. The Board adopted State equivalents in R89-4 (July 27, 1989). P.A. 86-125 (S.B. 64) then created a State Fund. Next, P.A. 86-958 provided that the Board was to amend its rules to allow the use of the State Fund in lieu of the private mechanisms required by federal law. R89-19 implements the intent of P.A. 86-958.

BOARD SENDS TO SECOND NOTICE PROPOSED AMENDMENTS TO TITLE 35 SUBTITLE C (TOXICS CONTROL), R88-21 (Docket B)

On December 6, 1989 the Board opened Docket B in the R88-21 proceeding for the purpose of allowing further consideration of certain adjunct to the overall water toxics control regulations as adopted in Docket A (See Board Opinion and Order R89-21(A), January 25, 1990).

At first notice, the Board proposed amendments to 35 Ill. Adm. Code 302 to include an alternative to the total iron water quality standard proposing a standard of 0.2 mg/l for dissolved iron. In response to comments to the Steel Group, the Board changed its proposed standard to 1.0 mg/l dissolved iron. The Board deleted the proposed Section 302.211(k) provision regarding mixing zones for thermal discharges from Second Notice as serving no beneficial purpose.

The Board retained the proposed amendments to Section

302.301 for a dissolved iron standard of 0.3 mg/l for public and food processing water purpose.

The Docket B proposed amendments to 35 Ill. Adm. Code 303 are, in effect, a site-specific mixing zone rule applicable to the Granite City Division of National Steel Corporation ("GCD") (303.354). The Board noted that since first notice GCD has filed an essentially identical proposal in an adjusted standard proceeding. Accordingly, the Board deleted this proposed rule from Docket B.

The Board retained the proposed amendment to 35 Ill. Adm. Code 304 for an exception for discharges to total residual chlorine which result from intermittent chlorination.

The Board decided not to proceed with the amendments to 305.102(d) and (e) based upon comments received and the Board's belief that the proposed amendments would not effectuate the intended goal.

The Board also declined to proceed with proposed amendments to Section 309.152(b) based upon negative public comment.

Copies of the Second Notice Opinion and Order are available upon written request of the Clerk of the Board.

BOARD GRANTS SITE-SPECIFIC RELIEF FOR ROADMASTER CORPORATION IN R88-19

R88-19, a rulemaking granting site-specific relief for Roadmaster Corporation, was adopted for final notice on April 26, 1990. This rule amends 35 Ill. Adm. Code 215 of the Board's air pollution regulations. Section 215.214 will permit higher levels of volatile organic matter ("VOM") emissions from Roadmaster's black and white flowcoating operations used in the production of bicycles, tricycles, and wagons at its Olney, Illinois facility. At this time, a compliant paint is neither technically available nor economically feasible. This provision expires automatically on January 1, 2000.

A copy of the final rulemaking may be obtained by writing to the Clerk of the Board.

BOARD DENIES ROCK ISLAND SITE-SPECIFIC IN R87-34

On March 22, 1990, the Board adopted an Opinion and Order (7-0) denying site-specific rule relief for the City of Rock Island's public water supply treatment plant. In its petition, filed September 29, 1987, Rock Island requested the Board to adopt a rule that would exempt its public water treatment plant from the requirements of 35 Ill. Adm. Code 304.106 and 304.124(a) for iron, manganese and total suspended solids (TSS). The Section 304.124(a) standards for these contaminants are 2.0 milligrams per liter (mg/l) for iron, 1.0 mg/l for manganese, and 15 mg/l for TSS. Section 304.106 prohibits effluent that contains "settleable solids, floating debris, visible oil, grease, scum or sludge solids" and states that "[c]olor, odor and turbidity must be reduced to below obvious levels."

In denying the requested relief, the Board noted that it could not conclude that the economic forces acting upon Rock Island entitled it to permanent relief. The Board also noted that Rock Island failed to show that site-specific circumstances made compliance with the general standards economically unreasonable or to distinguish itself from other Illinois communities that are subject to Illinois' technology-based standards.

A copy of this Opinion and Order is available upon written request of the Clerk of the Board.

BOARD AND STAFF ACTIVITIES

Chairman Marlin attended the dedication of the Middle Fork of the Vermilion River as Illinois' first wild and scenic river on April 21st. The river flows through Vermilion County. On April 20th, the Chairman and STS Member LouAnn Burnett attended the dedication of DENR's Hazardous Materials Lab in Urbana. Earlier in the week, Chairman Marlin testified before the House Appropriations I Committee in Springfield. He was accompanied by Sandra Wiley and Phil Van Ness.

Board Member Jacob Dumelle spoke to the Human Ecology Group in Wauconda on March 28th. His topic was "Air Toxics at the Breathing Level: Diesel Exhausts and Leaf Burning." On April 17th, Mr. Dumelle was on a panel discussing "Environmental Ethics" at DePaul University in Chicago. On April 19th, he spoke on "Environment and Energy" before the Chicago Association of Energy Economists in Chicago. Mr. Dumelle gave a talk "Earth Day 20 Years Later" on April 22 in Springfield at the Central Illinois Earth Week 1990 Celebration. Copies of the talk are available free upon request to Mr. Dumelle.

On Earth Day, Sunday April 22, Board Member Bill Forcade gave a speech at the DuPage County Earth Day Festival. The speech was entitled "Environmental Health in DuPage County", and reviewed local health and environmental data.

STS Member LouAnn Burnett attended a symposium, "The Removal and Transformation of Organic Matter in Drinking Water", at the University of Illinois on April 14th.
