ORDER OF THE BOARD (by J. Theodore Meyer):

This matter is before the Board on a petition for variance extension, filed by Amerock Corporation on August 21, 1992. A review of the petition, coupled with information furnished in connection with Amerock's earlier variance petition (PCB 87-131), shows that Amerock has complied with all content requirements except the following:

1. A detailed description of the proposed method of compliance (see Section 104.121(f)). Amerock states that if the Board denies Amerock's pending petition for a site-specific rule (R87-33), Amerock "will further evaluate the collection and treatment option and the source abatement option to determine which of the alternate compliance plans will be implemented." (Petition at 3.) This statement does not provide sufficient specificity for the Board to evaluate Amerock's chosen plan.

2. Amerock has waived hearing in this matter. However, the petition does not contain an affidavit in support of the material facts, as required by Section 104.124.

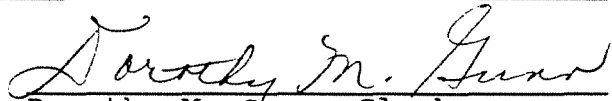

3. Amerock states that it incorporates the records of PCB 87-131 and R87-33 into this proceeding, and will provide copies of the pertinent portions of these records to the Board. As provided in Section 101.106, Amerock must provide four copies of the material to be incorporated.

Failure to remedy the above deficiencies within 45 days of this order will subject the petition to dismissal.

IT IS SO ORDERED.

0135-0533

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 3<sup>rd</sup> day of September, 1992, by a vote of 7-0.
