Respondent.	)	

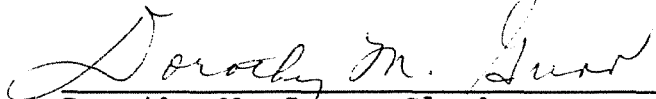

ORDER OF THE BOARD (by J. Theodore Meyer):

This matter is before the Board on its own motion. This petition was filed with the Board on November 1, 1991. No substantive action has taken place in this case. On March 9, 1993, petitioner, with the agreement of the Illinois Environmental Protection Agency, filed a status report. Petitioner states that it previously filed a waiver of the decision deadline to allow time for meaningful settlement negotiations, that the parties have had several meetings and numerous telephone conferences and have made substantial progress in resolving denial points, and that the appeal remains in a settlement posture and is likely to be resolved.

This status report, filed 16 months after the appeal was filed, is insufficient. There is no indication of the number or types of denial points which may have been resolved, or of when this case may be concluded. Petitioner is directed to file a more complete status report, setting forth specific details and an estimated time when this case might be resolved, within 30 days of the date of this order. Failure to do so will subject the petition to dismissal for want of prosecution.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 22<sup>nd</sup> day of April, 1993, by a vote of 6-0.
