ORDER OF THE BOARD (by R.C. Flemal):

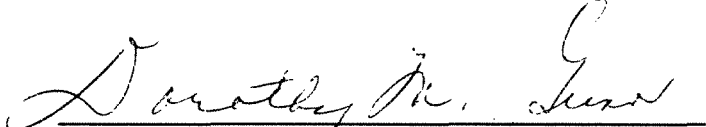

On February 23, 1994 LTV Steel Company (LTV) and the Illinois Environmental Protection Agency (Agency) filed a joint status report. LTV also filed a motion that the report be accepted instanter, stating *inter alia* that negotiations delayed the filing of this report. The Board grants the motion to file instanter.

The parties state that LTV's thermal study has been performed and reports prepared. LTV and its engineers have submitted the reports to the Agency along with a draft petition for adjusted standard. The Agency has recently completed its review and sent comments to LTV's counsel in correspondence dated January 21, 1994. LTV asks that the matter be stayed for another 60 days pending the filing of a petition for adjusted standard regarding the thermal discharges. LTV expects to file the adjusted standard within 30 days of receipt of the Agency's comments on the petition. An open waiver was previously filed in this proceeding.

The Board finds that the status report indicates sufficient progress toward resolution of this proceeding. The Board grants the motion to stay and directs the parties to file a status report with the Board and hearing officer not later than May 6, 1994.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 3<sup>rd</sup> day of March, 1994, by a vote of 6-0.
