) (Provisional Variance)
 ILLINOIS ENVIRONMENTAL)
 PROTECTION AGENCY,)
)
 Respondent.)

ORDER OF THE BOARD (by J.C. Marlin):

This matter comes before the Board on receipt of an Agency Recommendation dated March 26, 1991. The recommendation refers to a request from Petitioner, Village of Itasca, for a provisional variance from the effluent dilution and non-degradation to stream water quality requirements, as set forth in 35 Ill. Adm. Code 304.102(a) and 304.141(b), for the period from when the Petitioner commences repairs to its wastewater effluent pipe, by diversion of its wastewater into Spring Brook Creek, and continuing until the Petitioner returns its effluent pipe to service, but not for longer than 45 days.

The Agency recommends that the Board grant the requested provisional variance with specified conditions. The Agency agrees that the repairs are necessary. The Agency anticipates that the requested provisional variance would have minimal environmental impact on the receiving stream. The Agency is unaware of any public water supplies that the requested provisional variance would adversely impact. The Agency maintains that a grant of a provisional variance would violate no federal laws. The Agency finds that a denial of the requested provisional variance would create an arbitrary and unreasonable hardship on the Petitioner.

The responsibilities of the Agency and the Board in these short-term provisional variances are different from the responsibilities in standard variances. See Ill. Rev. Stat. 1989, ch. 111½, pars. 1035(b) & (c). In provisional variances it is the responsibility of the Agency to make the technical determinations and finding of arbitrary or unreasonable hardship. The Board's responsibility is to adopt a formal Order, to assure the formal maintenance of the record, to assure the enforceability of the variance, and to provide notification of the action by a press release.

Having received the Agency recommendation finding that a denial of the requested relief would impose an arbitrary and unreasonable hardship, the Board hereby grants Petitioner a provisional variance from 35 Ill. Adm. Code 304.102(a) and

304.141(b) on the following conditions:

1. The term of this provisional variance shall commence when the Petitioner, Village of Itasca, initiates bypassing its effluent pipe by diverting its wastewater effluent to Spring Brook Creek, and it shall expire on the date the Petitioner returns its effluent pipe to service, or after 45 days have elapsed, whichever comes first;

2. During the term of this provisional variance, the effluent from the Petitioner's treatment plant shall not exceed the limitations set forth in NPDES permit IL0026280, and the Petitioner shall sample its effluent at the frequency set forth in that permit;

3. The Petitioner shall return its effluent pipe to service and recommence discharging to Salt Creek as soon as possible;

4. The Petitioner shall notify Allen Anderson of the Agency's Maywood Regional office by telephone, at 708-531-5900, when it removes its begins discharge to Spring Brook Creek and when it recommences discharge to Salt Creek, and the Petitioner shall confirm this notice in writing within five days, addressed as follows:

Illinois Environmental Protection Agency
Division of Water Pollution Control
Compliance Assurance Section
2200 Churchill Road
P.O. Box 19276
Springfield, Illinois 62794-9276

Attention: Dan Ray

5. The Petitioner shall execute a copy of a Certificate of Acceptance of this provisional variance and forward that copy to the Agency addressed as is the written notice required in the above condition; the Petitioner shall forward that copy to Mark T. Books, addressed as above, within 10 days of the date of this Order of the Board, and the Certificate of Acceptance shall take the following form:

CERTIFICATION

I (We), _____,
hereby accept and agree to be bound by all terms
and conditions of the Order of the Pollution
Control Board in PCB 91-55, March 28, 1991.

Petitioner
